LIGHTSPEED™

The long-lasting protective coating for underwater lights.

More light. Less fuss.

What is Lightspeed™?

Lightspeed™ is a foul-release coating designed to protect your underwater lights from marine growth. With the Propspeed® promise of proven performance, you can trust Lightspeed to last for 1 – 2 years. Shine brighter, longer, with a lot less hassle. Slime wipes away easily and hard growth can't even take hold!

Why use Lightspeed™?

Lightspeed™ is an easy-to-use foul-release coating. It provides great coverage while being extremely low maintenance.

Don't risk damage to delicate components caused by scraping away hard marine growth! Protect your precious underwater lights and extend their life span with Lightspeed™.

Lightspeed™ protects your aesthetic features, while not interfering with the light transmittance.

Trust Lightspeed™ to keep your lights shining bright while you enjoy your time on the water.

Underwater lights enhance your vessel's style and functionality, illuminating the underwater world and brightening your boat's appearance.

Apply Lightspeed™ in 3 easy steps:

Protect your lights functionality, extend their life span and save yourself time cleaning with Lightspeed™, a long-lasting, easy-to-apply clear coat.

1. CLEAN: Tape off any areas you do not wish to coat. Clean the surface using the Lightclean wipe provided.

2. APPLY: Use the supplied brush to apply one thin layer of Lightspeed™ clear coat.

3. LET IT DRY: Wait a minimum of 8 hours before launching your boat. That's it!

“Underwater lights represent a considerable investment in your boat’s aesthetics.

Enjoy them for years to come with Lightspeed™ and keep your lights foul-free and looking dazzling.”
